The Mozilla Foundation is a non-profit organization dedicated on promoting openness, innovation and participation on the Internet. Mozilla is best known for the Firefox browser, but we advance our mission also through many other projects and efforts.

Volunteers play a key role at Mozilla and the Mozilla Reps program empowers and supports our global communities, especially where there isn't an official Mozilla presence. The Mozilla Reps are experienced and committed volunteers that can represent Mozilla in their region, organizing and attending events, mentoring new volunteers and supporting local communities, among other responsibilities.

Mozilla would like to thank **Pankaj Malhotra** for being committed to our mission and helping our organization in a remarkable way by taking on the Mozilla Rep role.

Yours faithfully,

Rosana Ardila
